Great News!! Anti-Illegal Immigration Bill Now Introduced in Senate! They Need To Know You Support It!! Will You?

The bi-partisan SAVE Act (S. 2366 & S. 2368) will require ALL employers to use the electronic verification system to keep illegal aliens out of U.S. jobs.

With 112 co-sponsors already on the House version (H.R. 4088), House Speaker Pelosi may feel pressured enough to allow it to come to a vote after Congress returns in January. With a similar version just introduced in the Senate, this bill to severely limit illegal immigration may be Congress's best chance to achieve substantial immigration reform with this Congress.
