BREAKING NEWS - SEAN OSBORNE - INTEL REPORT

Hello PZ Insiders,

Here is an up to the minute update I just received from Sean Osborne, Military Annalist for Northeast Intelligence Network. On top of the JORDAN VALLEY Intel we recently received here at Prophezine, Sean has acquired 5 more huge indicator in and of itself that the balloon is getting ready to pop.

I encourage you to share this with your friends, family and fellow church members. People have questions and we as watchmen and women on the wall are in a great position to share the hope of our Lord Jesus Christ.

I also ask that you please share that Prophezine is the #1 news source for Bible Prophecy and World Events. (www.prophezine.com). This helps us grow and with your help to be more effective for Christ in the long run. All of us working together can make a difference for His kingdom in these very exciting last days.

In His Service,

Ray

Ray,

Things are falling into place all over the place. The Levant could explode as early as this weekend.

Ahmadi-Nejad is in Damascus on a special agenda mission at this moment. Made the announcement of this trip on July 10. He met today with Syrian President Bashar al-Assad and Hezbollah leader Hassan Nasrallah. I believe this was a war council. After Ahmadi-Nejad leaves Damascus - expect war with Israel to commence at any time from Saturday thru September.

In addition to the private intelligence that Arabs have departed the Jordan Valley - which is a huge indicator in and of itself - there are 5 other very important items to note that I've acquired in the past 24 hours.

1. Per a private intelligence source in Beirut -- There are no Syrian nationals to be found in Beirut or in Lebanon. They have completely fled the country.
2. Elite Israeli Special Forces units have been issued a warning order/report for duty date of NLT 22 July - one day prior to 9 Av.

3. The U.S. has urgently mobilized transportation brokers to acquire all the empty transport trucks and railroad cars or flatbed conex shiipping containers they can muster from all points in North America. They are to stage the empty containers at two or more large US ammunition production facilities in the mid and upper midwest ASAP. (Read: U.S. is urgently preparing a massive resupply of ammo, explosives and weapons for Israel.)

4. UNIFIL troops in Lebanon are on highest level alert through 24 JUL 07. They expect imminent attack, raodside VBIEDs, kidnappings of troops, suicide bombings against UNIFIL positions in Southern Lebanon.

5. Hezbollah attacks into Israel proper being initiated in the specific vicinity of Shebaa Farms in Northern Israel is anticipated. Initial Hezbollah direct and indirect fires expected to consist of anti-tank rockets, anti-aircraft ordnance and mortars.

**In Him,
Sean**
