

# ATTENTION ALL DOGS!!!

THE FOLLOWING ARE IMPORTANT INSTRUCTIONS FOR EVERY DOG TO KNOW

## Instructions for properly hugging a baby

1. First, spy a baby.

2. Second, be sure that the object you spied was indeed a baby by employing classic sniffing techniques. If you smell baby powder and the wonderful aroma of wet diapers this is indeed a baby.

3. Next you will need to flatten the baby before actually beginning the hugging process. **\*\*Note:** The added slobber should help in future steps by making the "paw slide" easier.

**4. The "paw slide" - Simply slide paws around baby and prepare for possible close-up.**

**5. Finally, if a camera is present, you will need to execute the difficult and patented "hug, smile, and lean" so as to achieve the best photo quality.**

Dogs, if this is properly done, it will secure you a warm, dry, climate-controlled environment for the rest of your life. Good luck to all of you
